

“Woodland Treasures”

John T Lonsdale Ph.D.

John Lonsdale has written many articles about rock garden and woodland plants, including *Cyclamen* and *Trillium*, in journals published by many horticultural societies, including the Cyclamen Society, the Alpine Garden Society, the Scottish Rock Garden Club, the International Bulb Society and the North American Rock Garden Society. He has also made numerous presentations discussing these plants. Some of these articles, and a synopsis of one of the presentations, are reproduced on his Edgewood Gardens web site - edgewoodgardens.net/cultivation.html

Trillium

"Trilliums - Cultivation and Companion Plants in a Pennsylvania Garden" –

Winterthur Trillium Symposium 2008

http://www.edgewoodgardens.net/articles/Winterthur_trillium.html

"Will the Real Trillium sessile" Please Stand Up?"

Scottish Rock Garden Club

http://www.edgewoodgardens.net/articles/SRGC_trillium.html

"Trillium"

International Bulb Society

<http://www.edgewoodgardens.net/articles/trillium.html>

Cyclamen

“The Magic of Cyclamen”

North American Rock Garden Society

http://www.edgewoodgardens.net/articles/the_magic_of_cyclamen.html

Over 12,000 images of plants grown at Edgewood Gardens can be found on the web site at www.edgewoodgardens.net/Plants_album/index.html

Images are organized by plant families (which may or may not reflect 'current' status), then sub-divided into folders dedicated to individual genera, which may be further divided into sub-genus, species or other logical groupings.

Trillium pictures can be found here –

http://www.edgewoodgardens.net/Plants_album/The%20Plants%20-%20%20Complete%20Collection/Trilliaceae/index.html

Cyclamen pictures can be found here –

http://www.edgewoodgardens.net/Plants_album/The%20Plants%20-%20%20Complete%20Collection/Primulaceae/Cyclamen/index.html

The most up-to-date and comprehensive book about Cyclamen was published in 2013:

“Genus Cyclamen: Science, Cultivation, Art and Culture”

Edited by Brian Mathew and published by Kew Gardens Publishing in association with the Cyclamen Society.

“This book is a celebration of cyclamen, a genus of only 23 species popular amongst gardeners, growers, botanists and enthusiasts alike. Native to parts of Europe, western Asia and parts of North Africa; cyclamen are also highly cultivated plants. This new work contains a wealth of information gleaned from the practical experiences of the Cyclamen Society and other cyclamen experts, on both plants in the wild and in cultivation.”

Lovers of Cyclamen will be thrilled to know there is a society dedicated to the genus with a web site at <http://www.cyclamen.org/>.

For a small annual membership fee, you receive the Journal of the Cyclamen Society, published in June and December, which contains articles about plants in the wild and in cultivation. You also can participate in the annual seed distribution, which gives you access to all the species in diverse flower color and leaf forms, as well as seeds harvested from plants collected on the Cyclamen Society's expeditions

Slide List

Edgewood Gardens	Claytonia virginica Orange Form
Podophyllum pleianthum	Cyclamen pseudibericum
Paeonia mlokosewitschii	Phlox stolonifera
Cyclamen hederifolium	Epimedium lishihshenii
Cyclamen hederifolium "Stargazer"	Paeonia obovata var. willmottiae
Cyclamen hederifolium purple form	Iris gracilipes
Cyclamen hederifolium Corfu red form	Arisaema sikokianum
Cyclamen hederifolium leaves	Dracunculus vulgaris
Cyclamen cilicium	Trillium underwoodii
Cyclamen intaminatum	Trillium decipiens
Cyclamen mirabile Tile Barn Anne	Trillium reliquum
Cyclamen mirabile Tile Barn Nicholas	Trillium decumbens
Cyclamen seeds and propagation	Trillium cuneatum
Biocomp BC5 compost	Trillium pusillum var. alabamicum
Crocus banaticus	Trillium grandiflorum f. roseum
Crocus nudiflorus	Trillium flexipes
Galanthus elwesii "Potter's Prelude"	Trillium vaseyi
Adonis 'amurensis'	Trillium sulcatum forms
Eranthis hyemalis "Eleanor Lonsdale"	Trillium propagation
Eranthis hyemalis "Lightning"	Galax aphylla (Watnong Form)
Eranthis pinnatifida	Cypripedium kentuckiense
Helleborus x hybridus	Spigelia marilandica
Helleborus thibetanus	Arisaema consanguineum
Helleborus multifidus. ssp. hercegovinus	Arisaema taiwanense f. cinereum
Hepatica insularis	Cyclamen purpurascens
Dysosma delavayi (veitchii)	Homeland Security
Dysosma versipelle	Edgewood Gardens Web Site
Cyclamen coum	
Cyclamen coum leaves	
Cyclamen coum 'Porcelain'	
Cyclamen coum 'Meaden's Crimson'	
Galanthus "Simply Glowing"	
Galanthus "Philippe Andre Meyer"	
Galanthus plicatus "Diggory"	
Galanthus nivalis "Ecusson d'Or"	
Erythronium hendersonii	
Erythronium caucasicum	
Erythronium japonicum	
Erythronium rostratum	
Corydalis solida forms	
Corydalis turtschaninovii	
Cyclamen rhodium ssp. vividum	
Cyclamen rhodium ssp. peloponnesiacum	
Sanguinaria canadensis	
Sanguinaria canadensis "Multiplex"	
Sanguinaria canadensis "Betty Casto"	
Sanguinaria canadensis pink form
