

Dear Connecticut Horticultural Society,
My name is Lillian Borbas and I would like to thank you for selecting me as the recipient of the \$1,900 Connecticut Horticultural Society Scholarship in memory of Ludwig Hoffman. I am from Morris CT and a sophomore at the University of Connecticut majoring in Sustainable Plant and Soil Systems. I also plan to ~~major~~^{minor} in Ecology and Evolutionary Biology. My long term goal is to work with plants and our environment as a whole. I am interested in native and invasive plants and how their interactions affect our environment. I also hope to work in a botanical garden someday.

I really enjoyed my first year at UConn and look forward to the next three!

I am honored and so appreciative to receive this scholarship. Thank you for providing me with funds I can use towards my tuition, student fees, and textbooks.

Sincerely,

Lillian Borbas
